Analisis Pengaruh Dewan Pengawas Syariah dan *Corporate Social Responsibility* Terhadap Kinerja Keuangan Bank Umum Syariah di Indonesia Periode 2010-2016.

ISI :

Kinerja keuangan adalah salah satu tolak ukur dalam menilai suatu perusahaan, kondisi keuangan yang bagus akan menarik perhatian investor. Dalam hubungannya dengan kinerja, laporan keuangan sering dijadikan dasar untuk penilaian kinerja perusahaan. Namun tidak semua informasi dalam laporan keuangan benar, dalam perusahaan yang tata kelolanya kurang baik, bisa terjadi kondisi dimana informasi dalam laporan keuangan tidak sesuai dengan fakta di lapangan. Penelitian ini bertujuan untuk mengetahui pengaruh Dewan Pengawas Syariah (DPS) yaitu Jumlah Anggota, Keberadaan Lintas Keanggotaan, Latar Belakang Pendidikan Anggota dan Reputasi Anggota, serta *Corporate Social Responsibility* (CSR) secara simultan maupun parsial terhadap Kinerja Keuangan Bank Umum Syariah (BUS). Sampel dari populasi yang diteliti sebesar 7 BUS di Indonesia tahun 2010-2016. Hasil regresi menunjukkan bahwa DPS (Jumlah Anggota, Keberadaan Lintas Keanggotaan, Latar Belakang Pendidikan Anggota dan Reputasi Anggota) dan CSR secara bersama-sama memiliki pengaruh terhadap Kinerja BUS. DPS (Jumlah Anggota dan Reputasi Anggota) dan CSR secara parsial memiliki pengaruh terhadap Kinerja BUS. DPS (Keberadaan Lintas Keanggotaan dan Latar Belakang Pendidikan Anggota) secara parsial tidak memiliki pengaruh terhadap Kinerja BUS.

TITLE :

Analysis of Influence of Sharia Supervisory Board and *Corporate Social Responsibility* On Financial Performance of Sharia Banks In Indonesia Period of 2010-2016.

CONTENT :

Financial performance is one of the benchmarks in assessing a company, a good financial condition will attract the attention of investors. In relation to performance, financial statements are often used as a basis for performance appraisal. However, not all information in the financial statements is correct, in companies with bad governance, there can be conditions in which the information in the financial statements are not in accordance with the facts in the field. This study aims to determine the influence of Sharia Supervisory Board (SSB): Number of Members, Cross-Membership, Member Education Background and Member Reputation, and *Corporate Social Responsibility* (CSR) simultaneously and partially to Financial Performance of Islamic Banks (IBs). The sample of population under study was 7 IBs in Indonesia period of 2010-2016. Regression results indicate that SSB (Number of Members, Cross-Membership, Member Education Background and Member Reputation) and CSR together have an influence on IBs Performance. SSB (Number of Members and Member Reputation) and CSR partially have an effect on IBs Performance. SSB (Cross-Membership and Member Education Background) partially have no effect on IBs Performance.
