JUDUL: Pengaruh PDRB Sektor Unggulan Terhadap Jumlah Penduduk Miskin di Jawa Timur

ISI: Penelitian ini bertujuan untuk mengetahui pengaruh nilai PDRB di sektor unggulan (sektor pertanian, sektor industri dan sektor perdagangan, hotel dan restoran) terhadap jumlah penduduk miskin di Provinsi Jawa Timur tahun 2000-2008. Model analisis regresi yang digunakan adalah metode data panel dengan pendekatan *Fixed Effect Model (FEM)*. Hasil dari analisis tersebut menunjukkan bahwa PDRB di sektor pertanian, sektor industri pengolahan dan sektor perdagangan, hotel dan restoran berpengaruh negatif terhadap jumlah penduduk miskin. Sektor industri berpengaruh signifikan terhadap jumlah penduduk miskin tetapi pada sektor pertanian dan sektor perdagangan, hotel dan restoran pengaruh tersebut tidak signifikan. Secara keseluruhan ketiga variabel bebas dalam penelitian ini dapat dijadikan rumusan kebijakan dalam mengurangi tingkat kemiskinan yang ada di Provinsi Jawa Timur.

Kata kunci: PDRB sektor unggulan, Penduduk Miskin, *FEM*
