JUDUL :

INTERPRETASI AUDITOR TERKAIT PRAKTIK MANAJEMEN LABA:  
OPORTUNIS ATAU REALISTIS SERTA RELEVANSI DALAM PERANAN  
AUDITOR DAN OPINI AUDIT

ISI :

Teknik manajemen laba yang semakin revolusioner dan perbedaan pandangan terkait praktik manajemen laba : oportunis dan realistik sebagaimana relevansinya pada opini audit dan peranan auditor menjadi suatu kejadian yang perlu diteliti. Penelitian ini bertujuan memahami paradigma auditor eksternal terkait praktik manajemen laba di Indonesia serta memahami relevansinya melalui opini audit dan peran pengawasan dari auditor eksternal. Teori utama yaitu Teori Keagensi dan Teori Akuntansi Positif. Penggunaan metode penelitian kualitatif dengan bentuk deskriptif analitis untuk menganalisis pemahaman auditor sesuai pengalaman subjektif. Hasil penelitian menunjukkan adanya interpretasi cenderung oportunis dan relevan dengan intensitas penerimaan opini audit modifikasi. Kemudian, peran pengawasan auditor eksternal mengedukasi dan memeriksa pelaporan keuangan dan realitas tata kelola yang masih perlu diperbaiki.

Kata Kunci : Interpretasi Auditor, Opini *Modified*, Deskriptif Analitis, Praktik Oportunis, Tata Kelola, Teori Akuntansi Positif, Teori Keagensian, Peran Auditor

TITLE : AUDITOR INTERPRETATION OF EARNINGS MANAGEMENT  
PRACTICE: OPPORTUNISTICS OR REALISTIC AND ITS RELEVANCE TO  
AUDIT OPINION AND AUDITOR'S ROLE

CONTENT : Increasingly revolutionary earnings management techniques and different views regarding earnings management practices: opportunistic and realistic as their relevance to the audit opinion and the role of the auditor into an event needs to be examined. This study aims to understand the paradigm of external auditors related to earnings management practices in Indonesia and understand its relevance through audit opinion and supervisory role of external auditors. The main theory is the Agency Theory and Positive Accounting Theory. The use of qualitative research methods with analytical descriptive form aims to analyze the auditor's understanding according to subjective experience. The results showed that interpretation tends to be opportunistic and relevant to the intensity of acceptance of modified audit opinion. Then, the role of oversight of the external auditor educates and examines the financial reporting and the reality of corporate governance still needs to be improved.
