Front Cover.....

Back Cover.....i

Prerequisite for Master’s Degree.....ii

Statement of Originality.....iii

Statement of Validation.....iv

Foreword.....v

Letter of Approval For Publication.....vii

Abstract.....viii

Contents.....x

Tables.....xiii

Figures.....xiv

Abbreviations.....

.....xvi

Chapter 1 Introduction.....1

1.1 Study Background.....1

1.2 Research Question.....2

1.3 Aims and Objectives.....2

1.4 Benefits of Study.....3

Chapter 2 Literature Review.....4

2.1 MCA Embriology.....4

2.2 MCA Segments.....7

 2.2.1 M1 Segment.....10

2.2.2 M2 Segment.....	12
2.2.3 M3 Segment.....	14
2.2.4 M4 Segment.....	16
2.3 Cortical Branches of MCA.....	20
2.3.1 Origin Prior To Branching.....	24
2.3.2 Origin After Branching.....	24
2.4 MCA Branching Pattern.....	25
2.4.1 Bifurcation Subtypes.....	26
2.4.2 Trifurcation Subtypes.....	28
2.4.3 Other Branching Types.....	29
2.4.4 Early Branching.....	30
2.5 MCA Variations/Anomalies.....	31
2.5.1 Duplicated MCA.....	34
2.5.2 Accessory MCA.....	37
2.5.3 Fenestrated MCA.....	39
2.5.4 MCA Hypoplasia.....	40
Chapter 3 Study Framework.....	41
Chapter 4 Study Design And Methods.....	45
4.1 Study Design.....	45
4.2 Subjects.....	45
4.3 Study Variables.....	46
4.4 Study Instruments.....	47
4.5 Settings.....	47
4.6 Workflow.....	47

4.7 Data Management and Analysis.....	48
Chapter 5 Results.....	49
5.1 Baseline Variables.....	49
5.2 MCA Patterns.....	50
5.3 Estimation of MCA Patterns In The Population.....	58
5.4 MCA Anomalies.....	60
5.5 Estimation of MCA Anomalies In The Population.....	64
Chapter 6 Discussions.....	68
6.1 MCA Patterns.....	65
6.2 MCA Anomalies.....	67
Chapter 7 Conclusions.....	69
7.1 Conclusions.....	69
7.2 Suggestions.....	70
References.....	71

TABLES

Table 2.1 The prevalence of monofurcation, bifurcation, trifurcation, and tetrafurcation.....30

Table 2.2 The prevalence of duplicated and accessory MCAs, and MCA fenestration.....36

Table 5.1 Baseline variables of cerebral angiography results.....50

Table 5.2 MCA patterns from cerebral angiography results.....51

Table 5.3 Estimation of MCA patterns in the population.....59

Table 5.4 MCA anomalies from cerebral angiography results.....60

Table 5.5 Estimation of MCA anomalies in the population.....64

Table 6.1 The percentage of monofurcation, bifurcation, trifurcation, and tetrafurcation, with its average.....66

Table 6.2 The percentage of duplicated and accessory MCAs, and MCA fenestration, with its average.....68

FIGURES

Figure 2.1 Schematic representation of the formation of ICA, ACA, and MCA...5

Figure 2.2 Formulation of accessory MCA.....6

Figure 2.3 Double MCA trunks.....7

Figure 2.4 Extremes of territorial distribution of the MCA.....9

Figure 2.5 Segmental anatomy of the MCA.....10

Figure 2.6 Anterior view of the left MCA.....12

Figure 2.7 Lateral view of the M2 segment.....13

Figure 2.8 Segments of the MCA.....15

Figure 2.9 Sylvian triangle.....16

Figure 2.10 Left pterional view.....19

Figure 2.11 MCA cortical branches.....19

Figure 2.12 Mnemonic for the cortical MCA branches.....20

Figure 2.13 The most common origins of the cortical branches.....21

Figure 2.14 The most frequent pattern of the distal branches of the MCA.....23

Figure 2.15 The 11 different branching patterns of the MCA.....26

Figure 2.16 Branching pattern of the MCA.....28

Figure 2.17 Schematic illustration of the carotid system in the frontal view.....33

Figure 2.18 Duplicated MCA.....35

Figure 2.19 Anomalies of the MCA.....35

Figure 2.20 Accessory MCA.....38

Figure 2.21 MCA fenestrations.....40

Figure 5.1 Short segment.....52

ABBREVIATIONS

AA	Angular Artery
ACA	Anterior Cerebral Artery
AChA	Anterior Choroidal Artery
ACoA	Anterior Communicating Artery
AP	Anteroposterior
APA	Anterior Parietal Artery
ATA	Anterior Temporal Artery
AVM	Arteriovenous Malformation
CA	Central Artery
CB	Caudal Branch
CCF	Carotid Cavernous Fistula
CI	Confidence Interval
CR	Cranial Branch
CTA	Computed Tomography Scan Angiography
dAVF	Dural Arteriovenous Fistula
DICOM	Digital Imaging And Communications In Medicine
DSA	Digital Subtraction Angiography
EFB	Early Frontal Branch
ETB	Early Temporal Branch
ICA	Internal Carotid Artery
ICH	Intracerebral Hemorrhage
LSA	Lateral Striate Artery

MCA	Middle Cerebral Artery
mm	Millimeter
MOA	Medial Olfactory Artery
MRA	Magnetic Resonance Imaging Angiography
MSA	Medial Striate Artery
MTA	Middle Temporal Artery
OfA	Orbitofrontal Artery
PCA	Posterior Cerebral Artery
PcA	Precentral Artery
PfA	Prefrontal Artery
POA	Primitive Olfactory Artery
PPA	Posterior Parietal Artery
PTA	Posterior Temporal Artery
RAH	Recurrent Artery of Heubner
SD	Standard Deviation
ToA	Temporooccipital Artery
TpA	Temporopolar Artery
