

## CHAPTER IV

### CONCLUSION

English First Surabaya is the most popular private English courses in Surabaya. EF Surabaya has six schools, which is located in some strategic areas all over Surabaya. They provide a communicative and interactive English learning. They also use different methods for each level which is appropriate for students needs.

Doing an internship in EF Klampis Surabaya as a teacher gave the writer a lot of experience and knowledge. The writer can develop her knowledge she had before and practice it directly. While she was practicing, she found some problems about managing the students and the situation in the class. When she planned a lesson, it almost took 3 hours because she was confused. She struggled in understanding the curricula because most of it was different with what she had learnt. Moreover, she can find the solution for it after asking to her supervisors and practicing. Therefore, she could handle the class well and did not have problem again for doing another teaching practice.

*On the other hand, the writer also learned about adapting herself in a new situation and people while she was doing her internship. She learned how to be a good worker. She met new friends and had a good relationship with them. Finally, the writer hope that after doing an internship here, the writer can continue to learn a new knowledge and have new experiences as the result of good relationship between the writer, EF staff and teacher.*
