Dear Author,

Thank you for submitting your work to JRPS. Before we pass on manuscripts to the Journal Editor, who is responsible for the scientific assessment, we carry out an initial check against formal technical criteria (structure of submission, adherence to the Guide for Authors and English language usage).

We regret to inform you that your manuscript does not meet the Journal's required standard. Please make changes/corrections as detailed in the comments below. To resubmit your manuscript, please go to your account and upload corrected manuscript or sent it back to us via email.

Please correct the items mentioned in following.

Items:

- **References:**

The references should be cited according to the "Vancouver Style". Using this system, references are numbered in order that they are cited in the text. For in text citation, Number of references should be inserted in superscript and are listed in numerical order at the end of the paper. Journal names are to be abbreviated as they are in the Cumulated Index Medicus. "In press" references may be used only if the journal that has accepted the manuscript is indicated. Personal communications and other unpublished and nonarchival references should not be included in the reference list. Instead, they should be put as footnotes to the text; the source should be stated, and the item dated. Examples of references are as follows:

[1]. Halpern SD, Ubel PA, Caplan AL. Solid-organ transplantation in HIV-infected patients. N Engl J Med. 2002;347:284-287.

**More than six authors:**

[1] Rose ME, Huerbin MB, Melick J, Marion DW, Palmer AM, Schiding JK, et al. Regulation of interstitial excitatory amino acid concentrations after cortical contusion injury. Brain Res. 2002;935:40-46.

- Books and Other Monographs

- **Personal author(s)**

[1] Murray PR, Rosenthal KS, Kobayashi GS, Pfaller MA. Medical microbiology. 4th ed. St. Louis: Mosby; 2002.

**Editor(s), compiler(s) as author**

Gilstrap LC 3rd, Cunningham FG, VanDorsten JP, editors. Operative obstetrics. 2nd ed. New York: McGraw-Hill; 2002.

**Author(s) and editor(s)**

[1] Breedlove GK, Schorfheide AM. Adolescent pregnancy. 2nd ed. Wiecezorek RR, editor. White Plains (NY): March of Dimes Education Services; 2001.

**References in the text should be Superscript and brackets below.**

**For example:**

It is equivalent to aspirin in its anti-inflammatory effects. Ibuprofen is used primarily for rheumatoid arthritis<sup>4</sup>. It is also used for pericarditis and patent ductus arteriosus [5].

1. There is not ANOVA table in manuscript. Send it.
2. Where is Thermogram of DTA and FT-IR spectra? Send it.
3. What do Kosong and Dengan mean in figure 2?
4. What does JAM mean in figure 3? I think it is better to translate figures texts from mother language to english.
5. Send original SEM images of microsphere.

My opinion is this manuscript will not be able to accept before major revision.

Reviewer 2#

Hariyadi et al. investigated the effects of various concentrations of erythropoietin and alginate on the shape, size and yield of the resulting microspheres. This is a good work and I suggest publishing it in Journal of Reports in Pharmaceutical Sciences after doing all of comments.

1. In the abstract, the f1 to f4 treatments should be specified so that the reader can receive the results.
2. in the last paragraph of introduction this lines "The preparation of erythropoietin (EPO) -alginate microspheres was carried out through ionotropic gelation method with aerosolization technique usng 2% and 3% sodium alginate polymer and 5000 IU and 10000 IU of erythropoietin (EPO) crosslinked with CaCl<sub>2</sub> 1 M solution." Most move to materials and methods (Research Method) section!
3. Authors most introduce treatments in method section completely and explain what the F1 to F4 are.
4. In FTIR results; authors most report a figure and introduce its peaks and can use this paper for interpretation of results.  
<https://doi.org/10.1016/j.ijbiomac.2017.10.129>
5. Please use one EPO or erythropoietin when once abbreviates it initially. Also about all of erythropoietin writing is incorrect!

Dear Dr. Hariyadi,

We are pleased to inform that your manuscript "EXPERIMENTAL DESIGN APPROACH IN ERYTHROPOIETIN-ALGINATE MICROSPHERES PREPARATION WITH DIFFERENT CONCENTRATION OF DRUG AND POLYMER" is provisionally accepted. You would receive an edited version of article in about 2-3 weeks from now for a final check and correction.

The journal does not charge for submission, processing or publication of manuscripts and except for color reproduction of photographs.

We thank you for submitting your valuable research work to Journal of Reports in Pharmaceutical Sciences.

With warm personal regards,

Yours sincerely,

Dear Dr. Hariyadi,

An edited and formatted version of your article 'EXPERIMENTAL DESIGN APPROACH IN ERYTHROPOIETIN-ALGINATE MICROSPHERES PREPARATION WITH DIFFERENT CONCENTRATION OF DRUG AND POLYMER', which is scheduled for publication in a forthcoming issue of Journal of Reports in Pharmaceutical Sciences, has been uploaded on our site <http://www.journalonweb.com/jrtps>.

You are requested to check the same and upload corrected file within 5 days. if there are no changes click "No change" on the site.

If you have any difficulty in downloading or uploading the proofs, please write to [proofs@medknow.com](mailto:proofs@medknow.com) .

In case we do not hear from you within the stipulated time, we may proceed with publication of the article as it is or postpone the publication to the next issue.

We value your support to our journal and look forward for your valuable contribution in future.

Thanking you,

Mohsen Shahlaei
