**TITLE:**

Implementing Cash Waqf on Empowering Societal Economy by Indonesian Waqf Board (Case Study: Indonesian Waqf Board, East Java).

**CONTENT:**

This research aims at finding out how the implementing cash waqf on empowering societal economy which is recently facing many problems, they are: social gap, poverty, and unemployment. These problems are getting increased. Analysis technic done on this study is descriptive qualitative with case study method where this research is done by doing direct observation, taking documentation and all the data provided, and interviewing all the related parties to this matter, so that the data gained are able to answer all the research questions.

The result of this research show that Indonesian Waqf Board has done its duty in accordance with the Regulation no 41 year 2004 to manage and develop cash waqf properly, it needs human resources which are reliable, professional, knowledgeable in economics, perseverance, and having strong commitment. Therefore, cash waqf institution has a really strategic role on creating a productive waqf in Indonesia, therefore a training is needed to the waqf managers (nazhirs), a continuous socialization from academicians, ulamas, sharia economics practitioners, either from seminar, training, preaches, or mass media articles.

**Keywords:** Waqf, cash waqf, economy alleviation, productive society, Indonesian Waqf Board.
