ABSTRACT

Inequality of income experienced by five ASEAN countries. The purpose of this study is to test Kuznet's theory and see differences in income inequality among the five ASEAN countries. The research methods used are U test and ANOVA. Estimation results show that Kuznet's hypothesis applies in five ASEAN countries (Indonesia, Malaysia, the Philippines, Thailand, and Vietnam) and there are significant differences in income disparities between the five ASEAN countries (Indonesia, Malaysia, the Philippines, Thailand, and Vietnam).

Keywords : Income Inequality, U test, ANOVA
