There is still an issue you have not addressed, viz:

State clearly whether ethical approval was obtained for the animal studies and if so, state the official name and affiliation of the approving body, and the approval no.; state also the international guidelines for animal studies that you followed (cite it as a ref and list the ref in the 'References' section).

God bless!

Dear Editor in Chief
Greetings from us

We would like to ask regarding our manuscript final decision

Manuscript Ref: 20159567

Title: Electrolyzed Reduced Water Effect to Osteoclast Number, RANKL and OPG Expression during Orthodontics Tooth Movements in Wistar Rat (*Rattus Novergicus*) (Invivo)

Is it our manuscript acceptable in your journal? did you satisfied with our latest revision?

We are looking foward hearing from you.

We chose the fast tract for our paper, one year has been passed but until our paper still not published

Thank you,

--

Since my mail of July 30, 2019, we have not received your **satisfactorily** revised manuscript. Hope you sent it to us, as instructed via email, **not** via the online submission system. If we had received it, we would have acknowledged it and notified you of the issue it is slated to be published in.

God bless!
