ACKNOWLEDGEMENTS

My biggest gratitude goes to Allah SWT, who owns the biggest power and help me to finish this bittersweet study and life. Allah is the one who make it possible including all these messed up years I have spent at Airlangga University.

My next gratitude goes to my parents who indirectly makes me want to finish this study as soon as possible. Thank you for all your support and sacrifices and all those bittersweet words that also help me to know which way that I want to choose for the next time. For my mother, i can't thank you enough for your effort in pray for your useless son. For my father, you are the best father that a kid had ever dreamed of. Many thanks for my brother, this paper will not be completed without his help. Next, I would like to thank my thesis advisor Mrs. Usma Nur Dian Rosyidah, M. A. who has given her time and advice to help me work on my thesis and to remind me to learn about how to make a good paragraph for the readers. Thank you so much for your patience and your time, I really appreciate that.

To my fellow friends, thank you for your support and your advices in everything in life, for your patience, your kindness and all the adventures that you offer to me, that is really mean a lot to me. To my cats that help me maintain my temper while I am still under preasure, though all of you still annoying. Special thanks to Zamaruda, who always concerns me, although i had not given her the same careness that she give, she still support me that make me feels relief. Not to mentioned to my close friend Ardian, Junaedi, Sena, and Yudha for all of my experiences in pleasant day or in grief. Huge thanks to Yudha or Popo as his alias for being a supportive friend in both discussion and gaming situation.
