Foreword and Acknowledgement

Lo and behold, this monstrous of a thesis has finally been finished and ended and done with and has become another fragment of this measly life. First and utmost before anything else, I would like to thank God to actually letting me finish this thesis (lovingly called second child of mine) and kept me rather sane through the process. But mostly, in maybe one month, one year, one decade, or more, when life gets too rough and I open this page, I would like to thank me. I am so grateful of me to finish this thesis. So grateful and proud that even through all the struggles, I was able to pull through.

This thesis had taken probably more time of my life than it is necessary and I am more than grateful to have it now finished. It has been a huge struggle, filled with blood, sweat and tears and a lot of screaming and a lot of tumbles and rolls and scratches and probably more frustration than necessary but it has finished. If it were not for everyone around me and the support I got, I would still probably scream, roll, and cry over this thesis. Therefore, with thus, I would like to express my gratitude for everyone that has accompanied me through this journey.

To my nuclear family, my papa Firman Wahyudi and my mama Sri Suryana. I would like to thank you both for giving me this wonderful life, for all the patience you have kept while you raise me into the daughter that finally will finish her study, for all the sweats, all the tears, all the laughter's we share. I know and I know very well that it is hard to raise a child like me. That there is no book that guide the both of you on how to raise my kind of child. But I am eternally grateful that you love me. You love me even with our differences. You love me even when I thought I know better. Thank you that you let me achieve my dream. I know that I am not an easy child and that I say things that hurt your feelings, but I hope that even so, you two are still proud of me. This past years has been hard for the two of you but I promise that I will try to make everything better for us. That I will try to be a child that you can always be prideful of. For my mbak, Wulan C. Lestari, I would like to thank you as well. We may no longer live together but you would still confide in me and I in you. I rarely say this but I love you, I really do and please always remember that through everything, you have me and that I will

always be there for you. To my cats, Mimin and Bobby, I'm sorry that I haven't been the best owners these past one and a half year, but trust me I love you both.

For my ever-loving advisors, Mas Nyoman and Pak Muttaqien thank you so much for your patience in guiding me through this thesis. I know I was kind of slow in taking your advice and understanding your input, but believe me I try. I know I might not be those students that you will always remember, but I hope the two of you know that I will always be grateful.

For all lecturers during my years of studying in Unair, thank you so much for sharing all your knowledge to me, all your advises, all your stories, they inspire me to one day be a better person than I am and might as well surpass all of you in the future. Thank you Mas Wahyu, Pak Muttaqien, Bu Ani, Pak Dugis, Bu Irma, and Bu SS all of you are the best lecturers that I ever had and frankly you lot teach me a lot of things about life.

I would also like to thank my family in Surabaya that have very kindly and readily accept me in their home. Thank you Pakde Dodo, Bude Yeng, Bude Ita, Pakde Broto, Della and Mas Ais. I'm sorry that I have intruded your lives.

For Bella, thank you for always be there for me since day one. Thank you for always believing in me and support me, thank you that even though I am bad at keeping in touch you just don't go up and replace me right away. Thank you and I'm sorry that I can't be a better friend for you. But I hope that we will still be the best of friends beyond the 6 years we know each other. You may not think of it, but I always admire you, for your strength and the way you seem to carry yourself to easily. I love you and I really do cherish you.

For Firsty, thank you for being the friend that I need in this strange city and beyond. I know that we didn't click right away and we are different yet the same, but I'm glad that you accept me with very minimal judgement. And I know you could judge me real harsh and reject me as a friend out right, but I'm glad that you didn't. I hope we will always keep in touch and that you will live a full life.

For Arief, Bimo, Probo, Agas, Juita, Ulfah, Diana, Aldo, Vinesha, Rakhma, Adit, Beben, Vanny, Ihsan, Lucky, Tika, Yuni, Mira, thank you for being a friend and for being there when I need you. You may forgot me in the future, but please

do remember the memory we share, the laughters and the gossips. I will always be eternally grateful.

Thank you for Sundes ‘oppa’ or ‘mom’ or Nyx, really I call you with a lot of name. I am sorry that thorough this thesis I somewhat neglect you but you are still one of the best friend I have that does not drop me right away. I wish we can play more Monster Proms and hangout a bit more now that I’m a little more free.

For Abby, thank you. I am unable to properly put in words how grateful I am of you and that you are here with me. I am grateful that you never give up on me and that you always fully believe in me. Thank you, so much. I wish we can always be together for a really long time.

For everyone in my batch, every UNAIR staff, every ojol driver, and everyone that I cannot mention. Once again thank you, thank you for being there, thank you for all your support, without you I wouldn’t be where I am right now. May God bless you all and give you the best kind of future one can only hope.
