ACKNOWLEDGEMENTS

Alhamdulillah.

Firstly, I would love to send my greatest gratitude to the almighty God, Allah SWT, for giving me the strength and the knowledge for finishing this thesis. I do not believe myself that I could finish the thesis at first, but god almighty showed me the way to clear the thesis.

The next gratitude would be for my parents, who support me mentally also financially. I also would like to thank my friends in Mari Buat Gudang Meme group, Kentang itu buah atau sayur discord channel for the time they gave me during my free time. I want to give credits for Lisna and Nilna who helped me fix my thesis when there are errors. Big thanks for everyone in BEGAL who also gave me Ideas for my thesis, especially Sabi who gave me the simpler version of the theory I chose, cheers. I feel like It will be never enough for my gratitude towards all of the person who support me in my hardest time.

I also would like to thank my beyond awesome advisor, Nurul Fitri Hapsari, M.A. Her way of explaining things I do not understand is really awesome, and also the guide you gave me, helped me big time. Thankyou for sparing your time when you are busy and I am grateful for all the advice you gave me. I also wanted to thank my academic advisor, Rina Saraswati S.S., M.Hum who guides me since my first year.

For the last, thankyou all the participant who willing to be my respondent and allowing me to interview all of you to achieve the data. The thesis will not be able to finish without your responses.
