**ACKNOWLEDGEMENTS**

Firstly, I would like to express my deep and sincere gratitude to my supervisor Prof. Ir. Moch Amin Alamsjah, M.Si, Ph. D, Co-supervisor Dr. Nanik Siti Aminah, M.Si for their invaluable guidance, encouragement, suggestion in putting down this thesis, which would not be possible without their unparalleled supports and knowledgeable advice.

Secondly, I would like to thank Universitas Airlangga and Airlangga Development Scholarship (ADS) program for offering me a scholarship to take the Master Program in Fisheries and Marine Biotechnology, for paying my tuition fees and monthly financial supports during my stay in Surabaya, Indonesia.

I am greatly indebted to my family for encouraging me in all of my pursuits and inspiring me to follow my dream. I am especially grateful to my parents who gave birth to me, supported me emotionally and financially. I also would like to thank my sister who is always giving me support, encouragement and guidance. Without them, this study would never have been possible.

In addition, I would like to give special thanks to Dr. Hnin Thanda Aung, Dr. Tin Myo Thant, Dr. Khun Nay Win Tun, Ei Ei Aung (Ph.D Candidate), Aondohemba Samuel Nege for their invaluable advice, suggestion. I would also like to thank my classmates Ivan Achmadi, Muhammad Aiman Yudarana and Mtaufiq Shidqi for their help in collecting the sample from Madura Island.

Finally, I'm particularly grateful for the assistance and motivation of my lab mates, Indonesia friends and Myanmar family at Universitas Airlangga.
