

Editorial Manager Registration

Dari: African Journal of Infectious Diseases (em@editorialmanager.com)

Kepada: esuprihati@yahoo.co.id

Tanggal: Rabu, 15 Maret 2017 13.45 WIB

Dear Dr Suprihati,

Thank you for registering for the Editorial Manager online submission and peer review tracking system for African Journal of Infectious Diseases.

Here is your username and confidential password, which you need to access the Editorial Manager at <http://ajid.edmgr.com/>.

Username: Suprihati Endang

Password: suprihati5745

Please save this information in a safe place.

You can change your password and other personal information by logging into the African Journal of Infectious Diseases website and clicking on the Update My Information link on the menu.

Best regards,

African Journal of Infectious Diseases

Your PDF EVALUATION OF E. tenella ANTIGENICITY, IMMUNOGENICITY BY REPRODUCTIVE INDEX, HISTOPATHOLOGICAL CHANGES FOR CHICKEN COCCIDIOSIS VACCINE DEVELOPMENT has been built and requires approval

Kepada: esuprihati@yahoo.co.id

Tanggal: Rabu, 15 Maret 2017 16.38 WIB

Dear Dr Suprihati,

Your submission entitled "EVALUATION OF E. tenella ANTIGENICITY, IMMUNOGENICITY BY REPRODUCTIVE INDEX, HISTOPATHOLOGICAL CHANGES FOR CHICKEN COCCIDIOSIS VACCINE DEVELOPMENT" has been received by journal African Journal of Infectious Diseases

You will be able to check on the progress of your paper by logging on to Editorial Manager as an author. The URL is <http://ajid.edmgr.com/>.

Your manuscript will be given a reference number once an Editor has been assigned.

Thank you for submitting your work to this journal.

Kind regards,

African Journal of Infectious Diseases

EVALUATION OF *E. tenella* ANTIGENICITY, IMMUNOGENICITY BY REPRODUCTIVE INDEX, HISTOPATHOLOGICAL CHANGES FOR CHICKEN COCCIDIOSIS VACCINE DEVELOPMENT

African Journal of Infectious Diseases

Dear Dr Suprihati,

Reviewers have now commented on your paper. You will see that they are advising that you revise your manuscript. If you are prepared to undertake the work required, I would be pleased to reconsider my decision.

For your guidance, reviewers' comments are appended below.

If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

Your revision is due by Sep 27, 2017.

To submit a revision, go to <http://ajid.edmgr.com/> and log in as an author. You will see a menu item call Submission Needing Revision. You will find your submission record there.

Yours sincerely

Maria Inge Lusida, M.D., Ph.D.
Specialist Editor
African Journal of Infectious Diseases

Reviewers' comments:

Dear Authors,

Kindly revise your manuscript as follows:

1. Modify the title as follows: EVALUATION OF THE ANTIGENICITY AND IMMUNOGENICITY OF *Eimeria tenella* BY REPRODUCTIVE INDEX AND HISTOPATHOLOGICAL CHANGES OF CECAL COCCIDIOSIS VIRULENT LIVE VACCINE IN BROILER CHICKENS ;
2. Use single line spacing throughout the text;
3. Seek assistance of an English Language expert to edit the manuscript for grammatical errors;
4. Insert Figures and Tables in the appropriate places in the body of the manuscript;
5. Provide statement on conflict of interest; and
6. as per reviewers' comments below:

Reviewer #8: In this manuscript, actually the authors would like to explain the low doses of *E. Tenella* to be used as vaccine because they believe that the *E. Tenella* injected to animals body induce antibody as body protection.

For the major comments :

1. Why the authors mentioned use of low doses *E. tenella* as vaccine. is there any data that mention if the low doses of *E. tenella* is safe for several months? because in this study just follow up several days until 2 weeks.
2. For the doses of *E. Tenella*, do the authors follow the procedure or improve the previous study?because I am curious the limit of *E. tenella* doses can be used to have a good antigenicity or immunogeneticity. Could you perform the experiment using the lower doses of *E. Tenella* than the concentration which was already used to confirm the same or different result.
3. Why is the author use the group of *E. tenella* doses with slightly different concentration, is it correlate with the results which is not so different?
4. in this study use live of parasites to be used as vaccine to induce antibody. could you explain about the growing up of *E. Tenella*?

For the minor comments :

1. Please could you check the grammar and translation of your manuscript to professional grammar checker?
2. Please follow the correction of your manuscript in attached file.
